

What's Possible?

- Eliminate the workload and redundancy in speaker programs
- Match the right speaker to the right event
- Effectively manage speaker bureau selection, speaker training, scheduling, and utilization
- Maintain a master event calendar, budget, and speaker profile database
- Comply with FMV, state, and country-based regulations

Who's It For?

- Medical Education
- Events Management
- Management
- Bureaus
- Speaker Bureaus
- Marketing
- Compliance

Dashboard Technology

With OpenQ's dashlet technology the most important information is at your fingertips. Build your own dashboard from a selection of dashlets and dive into details as needed.

Find the Right Speaker

With budgets tight and compliance a must, finding the right speaker for an event is crucial. With Orchestrate, you can match the right speaker to the right event across a therapeutic area as well as track speaker history and feedback, ensuring that you make the best selection every time.

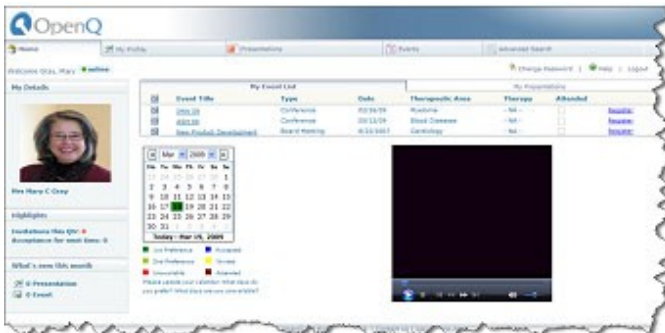

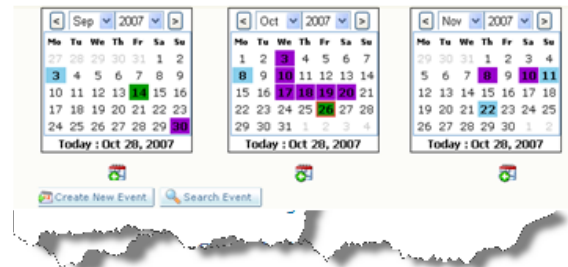

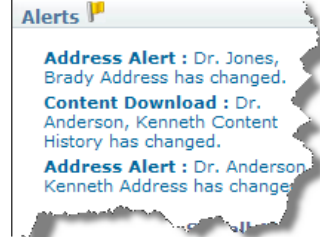

OpenQ Speaker Profiles

Speaker profiles provided by OpenQ seamlessly integrate with OpenQ Slide Management and KOL Management, allowing you to select the right speaker based on objective, third-party information.

Example Reports, Dashlets, and Alerts

- Speaker utilization alerts
- Contract expiration alerts
- FMV analysis
- Upcoming meeting
- Event status and milestone updates
- Attendance reports and feedback
- Training reports
- Business unit reports

Speaker Portal

OpenQ's modular portal technology allows you to make event information and content available to speakers through OpenQ's Empower solution.

Manage and Control the Event Process—Keep Others Informed

In an organization where many people are involved in an event, track and control the steps and approvals along the way to ensure compliance. Use OpenQ's event wizard to create new events.
